Dow Corning to Present Webinar on Effective Silicone-based Topical Formulations for Better Drug Delivery and Improved Patient Care

Seneffe, Belgium – Dow Corning, a global leader in silicones, silicon-based technology and innovation, will present an educational webinar titled, “Effective Silicone-based Topical Formulations – How to Improve Efficacy and Patient Compliance,” on June 7 at 10 a.m. EDT. Myriam Delvaux, global pharmaceutical marketing leader for Dow Corning Healthcare will lead the webinar and explain how

silicone-based ingredients and excipients can help generate innovative product forms with pleasant aesthetics for improved drug delivery and patient compliance.

Key topics the webinar will focus on include:

- Benefits of silicone-based material in topical applications
- Creating effective topical formulations with silicone-based materials
- Ensuring regulatory compliance of your ingredients and excipients

Demand for improved care is increasing as the global healthcare industry faces a growing aging population and the need for more affordable and accessible healthcare. From regulatory to payers to pharmaceutical companies to suppliers, Dow Corning's industry expertise can help bring innovative treatments to market more quickly and safely.
